RE: BUILD AMERICA BUY AMERICA ACT (BABAA)
Elkhart Products Corporation Wrot Copper Fittings

Elkhart Products Corporation ("EPC") supplies wrot copper fittings for distribution into various plumbing, mechanical, HVAC/R and other applications. Primary production of our wrot copper fittings is performed at our facility in Elkhart, IN and Fayetteville, AR USA. EPC confirms that these copper fitting products comply with the Build America Buy America Act ("BABAA") per Memorandum M-24-02, dated October 25, 2023, from the Office of Management and Budget (OMB).

In addition to its US-based manufacturing products, EPC sources cast fittings thru various entities, including sourcing from Taiwan. Sourced cast fittings are not considered BABAA-compliant. Two piece flanges require a steel base that is not considered BABAA-compliant.

Due to the fluidity of market conditions and the current nature of EPC's wrot copper fitting production, this correspondence and the statements contained herein are subject to periodic change.
