Elkhart Products Wrot Copper Pressure Fittings UL Recognized to 700 PSI.

USA and Canada.
UL File #SA44908

Select Elkhart Products Corporation solder and braze style HP AC-R® Wrot® copper fittings have been third-party-tested by UL and are now recognized for the performance requirements of 700 PSI (48 BAR) operating pressure with most refrigerants including R410A.

Elkhart Products Corporation AC-R Wrot Copper fittings are made from UNS C12200 99.9% pure copper tube manufactured to the industry standard ASTM B75 and B251. Material, construction, dimensions and working pressure meet the requirements of ASME B16.22-2013 and MSS SP-104.

See the UL website Online Certification Directory for more listing information.
